EDUCATION

Cavite State University Imus Campus
Bachelor of Science in Information Technology

Imus Cavite
Sept 2022 - Sep 2026

THESIS

**IQUEUE: Smart Queue Management with Mobile Application for Pastorelle –
Jesus Good Shepherd School**
Full-Stack Mobile Application Developer

2025 - 2026

Provided users with a convenient way to schedule appointments, receive digital queue tickets, and reduce waiting time through an efficient and organized queuing process.

- Developed the mobile application for an integrated queue management system.
- Designed responsive mobile interfaces and implemented application logic using React Native (Expo).
- Built and integrated RESTful APIs with a NestJS backend and MySQL database.
- Implemented QR code-based e-ticket generation for appointment and queue verification.
- Collaborated with the team to integrate the mobile application with the kiosk machine and web application.

INTERNSHIP EXPERIENCE

Cavite State University Imus Campus
IT Intern

Imus Cavite
Feb 2026 - May 2026

ACADEMIC PROJECT

Team_InovIT_E-Portfolio

UI/UX Developer

Tech Stack & Tools: React JS and Figma

- This project is a group project for Team-portfolio, this is also a activity for practicing and learning React Js.

link: <https://team-inov-it-e-portfolio.vercel.app>

Rizal_Interactive_Web_System

UI/UX Developer

Tech Stack & Tools: React JS and Figma

- An interactive website about Dr. José Rizal's life, works, and legacy, featuring timelines, quizzes, and digital exhibits for educational use.
- This project is for practicing REACT JS also and discovering new idea for interactive design.

link: <https://interactive-rizal-archives.vercel.app>

Cipher Project

Tech Stack: HTML, CSS and Javascript

- This is my practice for cryptography, in this project I build a web system for ceasar cipher encryption and decryption.
