PROFESSIONAL SUMMARY

Juniort Full-Stack Web Developer and IT Technical Support professional with experience in developing and maintaining web applications, troubleshooting technical issues, and supporting users and IT systems. Skilled in Vue.js, Node.js, Express.js, RESTful APIs, and MySQL, with a strong understanding of both front-end and back-end development. Experienced in diagnosing technical problems, resolving hardware and software issues, assisting users, maintaining systems, and developing practical technology solutions. Able to work independently or collaboratively while maintaining a strong focus on reliability, usability, and problem-solving.

EDUCATION

Cavite State University Imus Campus

Bachelor of Science in Information Technology

Imus Cavite

Sept 2022 - Sep 2026

THESIS

QUEUE: Smart Queue Management with Mobile Application for Pastorelle – Jesus Good

2025 - 2026

Shepherd School

Full-Stack Mobile Application Developer

Provided users with a convenient way to schedule appointments, receive digital queue tickets, and reduce waiting time through an efficient and organized queuing process.

- Developed the mobile application for an integrated queue management system.
- Designed responsive mobile interfaces and implemented application logic using React Native (Expo).
- Built and integrated RESTful APIs with a NestJS backend and MySQL database.
- Implemented QR code-based e-ticket generation for appointment and queue verification.
- Collaborated with the team to integrate the mobile application with the kiosk machine and web application.

EXPERIENCE

Cavite State University Imus Campus

IT Intern

Imus Cavite

Feb 2026 - May 2026

Responsibilities

- Maintained computer hardware and laboratory equipment.
- Installed software and performed basic troubleshooting.
- Managed digital records and data using Microsoft Excel.
- Provided technical support to staff and assisted with daily operations.
- Maintained office computer systems and documentation.
- Supported administrative workflows and accurate record keeping.
- Collaborated with staff to improve operational efficiency.

TECHNICAL SKILLS

Front-end: HTML, CSS, Javascript, React JS, Node. JS, Nest JS, Type ORM, Bootstrap, Tailwind, Typescript

Tools&Software: VS Code, XAMPP, MySQL Workbench, Burpsuite, Postman, Microsoft Word, Microsoft Excel, Github, Git, Figma

Back-end: Python, PHP, MySQL

OS: Windows, Linux Mint, Kali linux

IT Support Skills: Hardware Troubleshooting, Software Installation, System Maintenance, Technical Documentation

ACADEMIC PROJECT

Team_InovIT_E-Portfolio

UI/UX Developer

Tech Stack & Tools: React JS and Figma

- This project is a group project for Team-portfolio, this is also a activity for practicing and learning React Js.

link: <https://team-inov-it-e-portfolio.vercel.app>

Rizal_Interactive_Web_System

UI/UX Developer

Tech Stack & Tools: React JS and Figma

- An interactive website about Dr. José Rizal's life, works, and legacy, featuring timelines, quizzes, and digital exhibits for educational use.
- This project is for practicing REACT JS also and discovering new idea for interactive design.

link: <https://interactive-rizal-archives.vercel.app>

Cipher Project

Tech Stack: HTML, CSS and Javascript

- This is my practice for cryptography, in this project I build a web system for ceasar cipher encryption and decryption.
